WorkWISE NH

### WorkWISE NH Consultation Program

The OSHA On-Site Consultation Program, WorkWISE NH, provides **free, voluntary, and confidential** workplace safety and health assistance to eligible small businesses in New Hampshire. Our program can help you identify potential safety and health issues that may arise within your workplace and assist you in developing systematic strategies to protect your employees from such risks. We can also assist you in identifying underlying factors that may have led to these hazards and educate you on the OSHA regulations behind them. Our program aims to aid you in safety and health education and give you the tools to communicate your risk control plans to other employees, management, and or stakeholders.

On-Site Consultation Programs, like WorkWISE NH, are separate from State and Federal OSHA. Consultants do not issue citations or penalties. However, employers requesting consultation intend to correct serious hazards identified within agreed-upon time frames.

### On-site Consultation

OSHA's On-site Consultation Program offers free and confidential safety and occupational health advice to small and medium-sized businesses in all states across the country, with priority given to high-hazard worksites. On-Consultation services are separate from enforcement and do not result in penalties or citations. Consultants from agencies or universities work with employers to identify workplace hazards, provide advice on compliance with standards, and assist in establishing injury and illness prevention programs.

# Commonly Used Statistics - OSHA

**5,333 workers died on the job in 2019 (3.5 per 100,000 full-time equivalent workers) — on average, more than 100 a week or about 15 deaths every day. About 20% (1,061) of worker fatalities in private industry in calendar year 2019 were in construction – accounting for one in five worker deaths for the year.**

The following were the top 10 most frequently cited standards by Federal OSHA in fiscal year 2020 (October 1, 2019, through September 30, 2020):

1. Fall Protection, **construction** (29 CFR 1926.501) [[related OSHA Safety and Health Topics page](#)]
2. Hazard Communication Standard, general industry (29 CFR 1910.1200) [[related OSHA Safety and Health Topics page](#)]
3. Respiratory Protection, general industry (29 CFR 1910.134) [[related OSHA Safety and Health Topics page](#)]
4. Scaffolding, general requirements, **construction** (29 CFR 1926.451) [[related OSHA Safety and Health Topics page](#)]
5. Ladders, **construction** (29 CFR 1926.1053) [[related OSHA Safety and Health Topics page](#)]
6. Control of Hazardous Energy (lockout/tagout), general industry (29 CFR 1910.147) [[related OSHA Safety and Health Topics page](#)]
7. Powered Industrial Trucks, general industry (29 CFR 1910.178) [[related OSHA Safety and Health Topics page](#)]
8. Fall Protection–Training Requirements, **construction** (29 CFR 1926.503) [[related OSHA Safety and Health Topics page](#)]
9. Eye and Face Protection, **construction** (29 CFR 1926.102) [[related OSHA Safety and Health Topics page](#)]
10. Machinery and Machine Guarding, general requirements (29 CFR 1910.212) [[related OSHA Safety and Health Topics page](#)]
