ABC’s YOUNG PROFESSIONALS
GROUP (YPG), 2 YEARS YOUNG! -
DOES YOUR COMPANY PARTICIPATE?

A common issue many ABC companies are facing is
succession planning and the development within the
company and involvement in the industry of the
younger, emerging leaders.

It is apparent to ABC that it is the rule, not the
exception, that firms are at some stage of succession.
In effect the industry is being turned over to a whole
new generation of people all at once. It is important
that ABC is a resource to members developing their
future leaders and that as an organization we are
relevant to this new generation of leaders.

To support that goal the ABC NH/VT Chapter created
the Young Professionals Group (YPG). Now at about
the two year mark, YPG has grown to about 300
participants and are looking to get more member
company young professionals involved. It is a great
opportunity for young professionals in your company to
network not only among themselves but also with
senior members of the industry.

Membership is free and is open to anyone that is
affiliated with the construction industry. We encourage
members to also introduce our organization to
non-ABC members so that we can grow this great
organization.
ABC would like to thank all the individuals and companies for their support of the YPG as they allow their employees to attend our YPG Board Meetings and monthly events to run this group:

Please check out the YPG website at www.abcypg.org or facebook.com/abcypg to learn more about them and to check out upcoming events.

We hope to see your company represented at the next YPG event. All ages are welcome!

RECOGNIZING OUTSTANDING PROJECTS AND THE HEROES THAT MAKE THEM HAPPEN

2014 ABC Excellence In Construction Awards
Entry Deadline June 30th

Reminder, all member contractors have received the invitation for entry to Associated Builders & Contractors' 2014 EXCELLENCE IN CONSTRUCTION AWARDS (EIC) program. Be recognized, promote your capabilities and get noticed by prospective customers. It is truly an opportunity for your company to promote professionalism, create recognition of your capabilities and to create excitement among employees and reward them for their accomplishments.

The publicity received by award winners is invaluable and helps promote an awareness of the impact construction professionals have on everyone's lives and livelihoods.

The 2014 Awards ceremony will be held on Thursday, October 23, 2014, at the Capital Center for the Arts, in Concord, NH. Projects to be entered must have been completed between 1/1/12 and 1/1/14.

All ABC contractors are urged to plan and prepare entries for the 2013 ABC Excellence in Construction Awards program. There are entry categories for all contractors and projects from any New England state may be entered. As soon as possible review the criteria, select your project(s) and plan entry production activities. Please, do not hesitate to contact the Chapter Office to arrange a meeting, at your office, to assist your entry process.
